An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In Claim 46, line 8, the phrase - - an inlet of - - has been inserted before "the", the phrase "gallery' inlet side of" has been deleted, the phrase - - gallery to which - - has been inserted after "fuel" and in line 9, the phrase - - is connected - - has been inserted after "gallery".

The above noted changes have been made to clarify the language of Claim 46 and to make this language consistent with the language used in Claim 1.

The following is an examiner's statement of reasons for allowance: While Kato does teach venting vapor from a line upstream of the gallery via valve (19) this line cannot pull vapor from the gallery due to the presence of a check valve downstream of the vent line.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
